

IDEAS AND PROPOSALS FOR SELECTED RESEARCH AND DIPLOMA THEMES AND TOPICS / JANUARY 2019

In the following please find a list of themes which I have come across recently, not least based on ongoing dialogues and discussion with clients of mine. Hence, these topics do very much have a practical relevance. – If you are interested in potentially working on one of these or other related themes or have other proposals in that regards, please do not hesitate to get in touch with me.

Themes and topics in relation to Russia

- The impact of privatization in Russia on profitability, capital employment and dividend policy
- The impact of the NB's interest rate policy and interest changes on the domestic stock market
- The impact of the NB's interest rate policy and interest changes on banks' profitability
